Plains Chess - May, 2007

Editor's Note: In light of the budgetary concerns by our treasurer, I have elected to go to a more condensed format for this newsletter to pack in as much information as possible on 8 pages, so we can pay the letter rate. First of all, I apologize for the tardiness of this newsletter, but I have been so darn busy with my engineering job at Spirit AeroSystems. I am sure my KCA aerospace colleagues can appreciate just how hectic this industry is right now. There is an acute shortage of aerospace engineers right now. Good for my job security, but bad for other aspects of my life. OK, enough of my personal stuff. Let's get on to the chess issues.

I urge each member to attend the KCA business meeting because big changes are brewing. I enjoy writing articles and blogging on my activities. So, I propose that the newsletter should be available to members on line and that, if a member requests a paper copy of the newsletter, he should pay \$2 a copy to pay for postage and printing. This is on top of the \$7 dollar yearly dues collected at the Kansas, Katy, Garden City, Emporia, Lindsborg, and Super Bowl Opens. Also to save space I will eliminate cross-tables of events played because they are available for public viewing at www.kansaschess.org. Oh, and one more thing: Please cast your ballot in favor of **Jim Berry** for the USCF executive board. He has done a lot for the game and has one of the strongest organizations in the country, The Oklahoma Chess Foundation. He is a banker and can be trusted for improving the finances and decision making of the USCF executive board. Thank you for your attention, Ron J Pasik (316)-210-8532.
