

## 2017 NEW YEAR BASH RESERVE SECTION GAMES

Sorry for the delay, but it takes quite a bit of time to go over games sheets from the sections of a tournament. I previously reported Open section games. For this report I have Reserve section games. Most games involve one of the five persons tied for first place. There were actually less game sheets turned in the Reserve section than the Open even though there were more players: I think electronic recording devices are used more often in the Reserve section, or possibly less score sheets were turned in for whatever reason. Also, score sheets that were turned in for the Reserve section had more errors in notation: I could not use those games. Once again I give links to the games recorded on the web by ChessBase 13 and analyzed games with Fritz 12. I have 11 games. I just decided to have 11 instead of nice round number 10 which I put in Open section. Java script must be enabled.
